1 tsp	baking soda
375 ml	buttermilk
1	egg
½ tsp	vanilla extract
70 g	unsalted butter
250 g	blueberries

2. Mix dry ingredients and wet ingredients separately. Combine. Bake in muffin tins.
3. Bake for 20–25 minutes.

Buttermilk Pancakes

Makes 9 pancakes

10 minutes

Source: [70]

1 c	all-purpose flour
1 tsp	sugar
1/2 tsp	salt
3/4 tsp	double-acting baking powder
1/2 tsp	baking soda
1	egg
1 c	buttermilk or yogurt
2 Tbsp	melted butter

1. Sift the dry ingredients into a large bowl.
2. In a smaller bowl beat the egg until light. Add and beat the buttermilk and melted butter.
3. Make a well in the dry ingredients and Mix in the liquid with a few swift strokes. (Beating it will cause the batter to be tough.) If it is too thick, stir in some milk.
4. Drop onto a hot buttered griddle. The griddle is hot enough if a drop of water dances on its surface. If the water sits and boils, the griddle is not hot enough. If it disappears, it is too hot. When bubbles appear on the upper surface of the pancakes, but before the bubbles break, turn the pancakes. Only turn once. Remove from pan when second side is done, about half as long as required for the first side.
5. Serve at once. If this is not possible, store in a 200 °Foven on a towel-covered baking sheet. Do not stack, as off-gassing will make the pancakes flabby.
6. Serve with maple syrup and extra butter.

Blueberry Ricotta Pancakes

Serves 3–4

Makes 8

15 minutes

Source: [81]

250 g	ricotta
4 Tbsp	caster sugar
3	eggs, separated
1	orange zest
28 g	melted butter (2 Tbsp)
50 g	flour
100 g	blueberries

1. Begin beating egg whites slowly.
2. In a large bowl, mix the ricotta, caster sugar, and egg yolks. Grate the orange into the bowl and stir it in gently with the melted butter.
3. Sift in the flour and carefully fold in.
4. Beat the egg whites until stiff,then fold them lightly into the ricotta. Carefully fold in the blueberries.
5. Warm a non-stick frying pan over a moderate heat, brush with a little butter, then place a heaped tablespoon of mixture into the pan, and another two or three depending on the size of your pan. Cook for a minute or two till they have risen slightly and the underside has coloured, then, using a palette knife, flip them over. Do this as if you mean it, or they will collapse as you turn them. A further few minutes cooking, then serve immediately.

Whole Wheat Pancakes

Makes 9 pancakes

10 minutes

Source: [70]

1/2	c	all-purpose flour
1/2	tsp	salt
1/2	tsp	double-acting baking powder

2. In a smaller bowl combine and beat the sugar, egg, buttermilk, and melted butter.
3. Make a well in the dry ingredients and Mix in the liquid with a few swift strokes. (Beating it will cause the batter to be tough.) If it is too thick, stir in some milk.
4. Drop onto a hot buttered griddle. The griddle is hot enough if a drop of water dances on its surface. If the water sits and boils, the griddle is not hot enough. If it disappears, it is too hot. When bubbles appear on the upper surface of the pancakes, but before the bubbles break, turn the pancakes. Only turn once. Remove from pan when second side is done, about half as long as required for the first side.
5. Serve at once. If this is not possible, store in a 200 °F oven on a towel-covered baking sheet. Do not stack, as off-gassing will make the pancakes flabby.
6. Serve with maple syrup and extra butter.

Herb and Onion Savory Waffles

Serves 3

15 minutes

Source: [81]

2	large eggs, separated
460 g	milk (1 3/4 c)
90 g	butter (6 Tbsp), melted
250 g	flour (2 c)
1/2 tsp	salt
1 Tbsp	baking powder
2 Tbsp	grated onion
1/2 tsp	sage
1/2 tsp	thyme
1 Tbsp	freshly chopped parsley

1. Heat waffle iron.
2. Beat egg whites until stiff. Set aside.
3. In a medium bowl, combine egg yolks, milk, and melted butter. Add flour, salt, and baking powder. Stir to blend well. Add the onion and spices. Fold in the egg whites.
4. Oil or butter the iron if necessary. Ladle enough batter to cover two-thirds of the grid. Close and cook until steam stops, about five minutes.

Waffles

Makes 9

15

Source: [70]

$1\frac{3}{4}$ c	cake flour
2 tsp	double-acting baking powder
$\frac{1}{2}$ tsp	salt
1 Tbsp	sugar
3	eggs
7 Tbsp	butter, melted
$1\frac{1}{2}$ c	milk

1. Heat a waffle iron.
2. Sift dry ingredients into a large bowl.
3. Separate eggs. Beat yolks until light. Add melted butter and milk. Make a well in the center of the dry ingredients and mix in the liquid with a few swift strokes. The batter should have a pebbled look, similar to a muffin batter. Add any mix-ins, see below.
4. Beat the egg whites until stiff. Fold into the batter until they are barely blended.
5. Cover the grid until it is about $\frac{2}{3}$ covered. Cook about four minutes—steam will stop emerging from the iron when the waffle is done. If the top of the iron resists opening, the waffle is probably not done, cook slightly longer.
6. If the iron is, indeed, made of iron, it should be seasoned and then never washed (only brushed or wiped) and will need no additional oil or butter.
7. At high altitudes, use about $\frac{1}{4}$ less baking powder or soda than recommended.

Optional mix-ins:

1/2	c	fresh fruit or berries
1/4	c	raisins or puréed dried fruit
1/4	c	grated semisweet chocolate
1/4	c	shredded sharp cheese

Salads

101 Simple Salads for Summer

20 minutes

Source: [62]

The idea is roughly that these are simple summer salads that take under twenty minutes each to prepare and that offer a nice meal.

(Those with meat or that I don't like are omitted, but I've kept the numbering for ease of reference.)

Mostly Vegan Salads

1. Cube watermelon and combine with tomato chunks, basil and basic vinaigrette. You can substitute peach for the watermelon or the tomato (but not both, O.K.?). You can also add bacon or feta, but there goes the vegan-ness.

2. Mix wedges of tomatoes and peaches, add slivers of red onion, a few red-pepper flakes and cilantro. Dress with olive oil and lime or lemon juice. Astonishing.

3. A nice cucumber salad: Slice cucumbers thin (if they're fat and old, peel and seed them first), toss with red onions and salt, then let sit for 20 to 60 minutes. Rinse, dry, dress with cider vinegar mixed with Dijon mustard; no oil necessary.

4. Shave raw asparagus stalks with a vegetable peeler. Discard the tough first pass of the peeler—i.e., the peel—but do use the tips, whole. Dress with lemon vinaigrette and coarse salt. (Chopped hard-boiled eggs optional but good.)

5. Grate or very thinly slice Jerusalem artichokes; mix with pitted and chopped oil-cured olives, olive oil, lemon juice and a sprinkling of coarsely ground cumin. Unusual and wonderful.

6. Sichuan slaw: Toss bean sprouts, shredded carrots and celery, minced fresh chili, soy sauce, sesame oil and a bit of sugar. Top with chopped peanuts and chopped basil, mint and/or cilantro. (The full trio is best.)

7. Grate carrots, toast some sunflower seeds, and toss with blueberries, olive oil, lemon juice and plenty of black pepper. Sweet, sour, crunchy, soft.

8. Chop or slice radishes (or jicama, or the ever-surprising kohlrabi) and combine with chopped or sliced unripe (i.e., still crunchy) mango, lime juice and mint or cilantro.

9. Chop or slice jicama (or radishes or kohlrabi) and mango and mix with coconut milk, lime juice, curry powder and cilantro or mint.

10. Cook whole grape tomatoes in olive oil over high heat until they brown lightly, sprinkling with curry powder. Cool a bit, then toss with chopped arugula, loads of chopped mint and lime juice.

11. Chop and steam baby or grown-up bok choy until crisp-tender, then shock it in ice water. Drain, then toss with halved cherry tomatoes, capers, olive oil and lemon juice.

12. Combine sliced fennel and prune plums; serve with vinaigrette spiked with minced ginger. Nice pairing.

13. A red salad: Combine tomato wedges with halved strawberries, basil leaves, shaved Parmesan and balsamic vinegar.

14. A classic Moroccan thing: Thinly slice carrots, or grate or shred them (the food processor makes quick work of this). Toss with toasted cumin seeds, olive oil, lemon juice and cilantro. Raisins are good in here, too. There is no better use of raw carrots.

15. Cut cherry or grape tomatoes in half; toss with soy sauce, a bit of dark sesame oil and basil or cilantro. I love this—the tomato juice-soy thing is incredible.

16. Slice fennel and crisp apple about the same thickness (your choice). Combine, then dress with mustardy vinaigrette and chopped parsley. Come fall, this will be even better.

17. With thanks to Szechuan Gourmet restaurant: Finely chop celery and mix with a roughly equal amount of pressed or smoked tofu, chopped. Dress with peanut oil warmed with chili flakes and Sichuan peppercorns, then mixed with soy sauce.

18. Roughly chop cooked or canned chickpeas (you can pulse them, carefully, in a food processor) and toss with olive oil, lemon juice, lots of chopped fresh parsley and mint, and a few chopped tomatoes. Call this chickpea tabbouleh.

19. Mix cooked cannellini or other white beans, chopped cherry or grape tomatoes and arugula or baby spinach. Lightly toast sliced garlic in olive oil with rosemary and red pepper flakes; cool slightly, add lemon zest or juice or both, then pour over beans.

20. Shred Napa cabbage and radishes. The dressing is roasted peanuts, lime juice, peanut or other oil, cilantro and fresh or dried chili, all whizzed in a

blender. Deliciousness belies ease.

21. Dice cucumbers (if they're fat and old, peel and seed them first) and toss with cubes of avocado, a little mirin (or honey, but then it's not vegan), rice vinegar and soy sauce. (You could mix in a little lump crab meat, really not vegan, even rice, and call it a California roll salad.)

22. Thinly slice button mushrooms; toss with finely chopped carrots and celery and mix with mung bean sprouts. Finish with peanut or olive oil, sherry vinegar, a little soy sauce and minced ginger. (This is a super vinaigrette, by the way.)

23. Thinly slice some cucumbers (if they're fat and old, peel and seed them first), red onions, radishes and fresh chili pepper. Soak for a few minutes in equal amounts vinegar and water, with some salt and sugar. When they taste lightly pickled, drain and serve, alone or over rice.

24. Blanch spinach, then drain and shock in ice water. Squeeze it dry, chop it and toss it with toasted pine nuts, raisins, olive oil and a tiny bit of balsamic vinegar. Capers are good, too. Quite elegant, actually.

25. Combine chopped bell peppers, tomatoes, red onion, chilies and cilantro, then toss with corn tortilla strips, toasted in a 350-degree oven until crisp (or yes, use packaged chips; why not?). Dust with chili powder and lots of lime juice.

26. Combine mushroom caps and thinly sliced red onions with olive oil; broil gently until tender and browned. Toss with a lot of chopped fresh parsley or basil (or both) and a simple vinaigrette. Some chopped escarole, arugula or watercress is good, too.

27. Cook whole, unpeeled eggplant in a dry, hot skillet or on a grill, turning occasionally, until completely collapsed and soft. Chop and toss with toasted pita, toasted pine nuts, cooked white beans and halved cherry tomatoes. Dress with olive oil, lemon juice and lots of black pepper. Or a (non-vegan) yogurt dressing is good, especially one laced with tahini.

28. Toss mâche or another soft green with toasted slivered almonds and roughly chopped fresh figs. Thin some almond butter with water and sherry vinegar to taste and use as a dressing. Some will like this with fresh goat cheese.

29. Pit and halve cherries (or halve and pit cherries), then cook gently with olive oil and a little balsamic vinegar until they break down. Toss with chopped radicchio, endive, escarole or a combination, some toasted hazelnuts and more oil and vinegar, if necessary.

30. Fast, grown-up potato salad: Boil bite-size red potatoes. While still warm, dress them with olive oil, lemon juice, whole grain mustard, capers and parsley. Chopped shallots, bell peppers, etc., all welcome, too.

31. Roast beets whole (or buy them precooked), then slice or cube and toss with a little chopped garlic (or a lot of roasted garlic), toasted walnuts, orange juice and olive oil.

32. Same deal with the beets, but toss with cooked corn, arugula, olive oil, sherry vinegar and chopped shallots.

33. The real five-bean: Chickpeas, cannellini or other white beans, kidney or other red beans, steamed string beans and steamed yellow wax beans. Toss with vinaigrette, chopped scallions or red onion, and parsley.

34. Grill quartered romaine hearts, radicchio and/or endive. Drizzle with olive oil and sherry vinegar, and add dill and chopped shallots. Teeny-tiny croutons are great on this.

35. Combine cooked or canned black beans with shredded cabbage and this vinaigrette: olive oil, fresh orange juice, not much sherry vinegar, ground cumin.

36. Mix cooked or canned chickpeas with toasted coconut, shredded carrots, chopped celery, curry powder, olive oil, lime juice and cilantro.

Vegetarian Salads

37. Cube smoked tofu, then brush it with a mixture of honey and orange juice; broil until browned. Toss with chopped cucumbers, radishes and peas or pea shoots; drizzle with soy sauce and lime juice.

38. Cube watermelon; combine with roughly chopped mint, crumbled feta, sliced red onion and chopped Kalamata olives. Dress lightly with olive oil and lemon juice. Despite saltiness of feta and olives, this may need salt.

39. Yucatecan street food as salad: Roast fresh corn kernels in a pan with a little oil; toss with cayenne or minced chilis, lime juice and a little queso fresco. Cherry tomatoes are optional.

40. Slice cucumber and top with capers, olive oil, lots of pepper and little dollops of fresh ricotta. Note: cucumbers, ricotta and oil must all be really good.

41. Halve avocados and scoop out some but not all of their flesh. Roughly chop and toss with black beans, queso fresco, cilantro, chopped tomatillos and lime juice. Serve in the meaty avocado shells.

42. Trim crusts if necessary from day-or-two-old bread (or even three-day-old bread), cube and marinate in black olive tapenade thinned with more olive oil. Add chopped capers and toss with tomatoes, basil and mozzarella. (Anchovies optional.)

43. Grate raw beets (use the food processor to avoid ruining everything within spattering distance) and toss with watercress or arugula. Top with sherry vinaigrette and a little goat cheese. Especially obvious, perhaps, but also especially popular.

44. Make a crisp grilled cheese sandwich, with good bread and not too much good cheese. Let it cool, then cut into croutons. Put them on anything, but especially tomato and basil salad. This you will do forever.

45. Halve or quarter cooked artichoke hearts (the best are fresh and grilled, but you can use canned or frozen) and combine with cherry tomatoes, bits of feta or Parmesan or both, olive oil and lemon juice.

46. Sauté mushrooms and shallots in olive oil. Add a lot of spinach, chopped unless the leaves are small. When it wilts, stir in parsley and crumbled blue cheese. Feels like a steakhouse side-dish salad.

47. Thinly slice raw button mushrooms; combine with sliced or shaved Parmesan, parsley and a vinaigrette of olive oil, sherry vinegar and shallots.

48. Toss roughly chopped dandelion greens (or arugula or watercress) with chopped preserved lemon, chickpeas, crumbled feta and olive oil. (Before you start cursing me out, here's a quick way to make preserved lemons: chop whole lemons and put in a bowl with the juice of another lemon or two, sprinkle with a fair amount of salt and let sit for an hour or so.)

49. Toss greens with walnuts, blue cheese and raspberries; drizzle with a simple vinaigrette.

50. It's puttanesca-ish: Egg salad with pitted black olives, chopped tomatoes, capers, anchovies (optional), a tiny bit of garlic and some red onion; mayonnaise as needed.

51. Arrange sliced ripe tomatoes and hard-boiled eggs on a platter; scatter a handful of chopped pitted green olives on top. Drizzle with a dressing made with olive oil, sherry vinegar and a teaspoon of pimentòn.

52. Chop hard-boiled eggs and mix with just enough mayonnaise to bind; spoon into endive leaves. Top each with a small canned sardine and drizzle with a

vinaigrette of olive oil, lemon juice and mustard.

53. Peel beets and grate them in a food processor. Mix equal parts plain yogurt and tahini, and toss with the beets along with lemon juice and za'atar (a mixture of toasted sesame seeds, dried green herbs and ground sumac; you can make it yourself using dried thyme).

54. Slice roasted red peppers (if you must use canned, try to find piquillos) and fresh mozzarella. Toss with cooked white beans, olive oil, red wine vinegar, a chopped shallot and fresh rosemary or parsley.

Salads with Seafood

55. Mix watercress with chopped smoked salmon, avocado, red onion and capers. Make a vinaigrette with olive oil, sherry vinegar and mustard powder.

56. Salade niçoise, sort of: On or around a bed of greens, make mounds of olives, cooked new potatoes and green beans (warm or at room temperature), good tomatoes, capers, fennel slivers, hard-cooked eggs and good quality Italian canned tuna. None of these is crucial; you get the idea. Serve with vinaigrette or aioli.

57. Toss cubes of day-or-more-old good bread with soy sauce, chopped sautéed shrimp, chopped radishes and cilantro. Like a weird shrimp toast panzanella.

58. Sear tuna until rare (for that matter, you could leave it raw) and cut it into small cubes. Toss with shredded jicama or radish and shredded Napa cabbage; season with mirin, soy sauce and cilantro. Avocado and/or wasabi paste are great with this, too.

59. Sear tuna, or use good canned tuna. Chop it up and mix with chopped olives, capers, tomatoes, parsley and olive oil.

60. Ditto on the tuna. Mix with chopped apples, halved seedless grapes, chopped red onion, olive oil, a bit of cumin and black pepper.

61. Mix canned salmon (sockeye, or use cooked fresh) with capers, chopped celery, yogurt or mayonnaise, and lemon juice. Serve on greens or in endive leaves.

62. Dust shrimp with chili powder. Sauté in butter or oil (or a combination) with fresh corn kernels and flavorful cooking greens (bok choy is good, as is watercress). Add halved cherry tomatoes and lime juice at the last minute.

63. Sunday brunch salad: Mix diced cucumbers, chopped tomato, minced red onion and capers with bits of smoked salmon. Dress with lemon juice (you won't need much oil, if any). Take a step further by adding croutons of cubed toasted bagels.

64. Alternative Sunday brunch: Shred or chop cucumbers (if they're fat and old, peel and seed them first), then toss with flaked smoked trout or whitefish, capers, dill, lemon juice and olive oil.

65. In a hot pan, flash-cook cut-up squid in a little olive oil for no more than two minutes. Toss with cooked or canned chickpeas, chopped bell peppers, lemon juice, a little more oil and parsley.

66. In a hot pan, sear sea scallops for a minute or two on each side, depending on size. Slice or chop, then toss with thinly sliced fennel and lemon or orange vinaigrette and some chopped fennel fronds.

67. Bread salad for anchovy lovers: Chop together many anchovies, a few capers, lemon juice and olive oil (or anchovy oil). Toss with cubes of toasted bread and chopped tomatoes or halved cherry or grape tomatoes.

68. Mix crab meat with pan-roasted corn, chopped avocado, halved cherry or grape tomatoes, olive oil, lemon juice and perhaps a bit of cilantro and crumbled ancho chili.

69. Stir-fry small or chopped shrimp in olive or peanut oil with lots of ginger; while still warm, combine with tomato wedges, chopped romaine, cilantro, scallions and lots of lime juice. Good in pita.

Salads with Noodles

84. Spring rolls, unrolled: One at a time, soften a few sheets of rice paper in warm water. Drain, pat dry, cut into strips and toss with chopped cucumber, grated carrots, chopped cilantro, bean sprouts, chili flakes and chopped roasted peanuts. Dress with toasted sesame oil, fish sauce or soy sauce, and rice vinegar or lime juice. A few shrimp are a nice addition.

85. Mix lots of arugula with somewhat less cold whole wheat penne, lemon zest, olive oil and Parmesan. The idea is an arugula salad with pasta, not a pasta salad with arugula.

86. Toss chilled cooked soba noodles with diced cucumber (if they're fat and old, peel and seed them first), a small amount of hijiki reconstituted with water, toasted sesame seeds and a vinaigrette laced with soy sauce and miso.

87. Cold not-sesame noodles: Combine about a half-cup peanut butter with a tablespoon soy sauce and enough coconut milk to make the mixture creamy (about a half cup), along with garlic and chili flakes in a blender or food processor. Toss sauce with cooked and cooled noodles, a load of mint, Thai basil,

and/or cilantro, and lime juice. Shredded cucumber and carrots optional.

88. Toss cooked pasta with roasted red peppers, toasted walnuts, fresh goat cheese, basil and olive oil. Corny, but still good.

89. Soak or cook rice noodles, drain and rinse; toss with cubed unripe mango, chopped peanuts, shredded carrot and minced scallion. Make a dressing of rice vinegar, fish sauce, lime juice, chili and a bit of sugar.

90. Sort of classic pasta salad: Pasta, artichoke hearts, sliced prosciutto or salami, chopped plum tomato. Dress with olive oil and a bit of balsamic vinegar, perhaps with some mustard.

Grain Salads

91. Cereal for grown-ups: Start with puffed brown rice; toss with chopped tomatoes, scallions, a minced chili, cooked or canned chickpeas and toasted unsweetened coconut. Dress with coconut milk and lime juice.

92. Simmer a cup of bulgur and some roughly chopped cauliflower florets until tender, 10 to 15 minutes. Toss with chopped tarragon, roughly chopped hazelnuts, minced garlic, Dijon mustard, olive oil and lemon juice.

93. Mix leftover rice with lemon or lime juice, soy sauce and a combination of sesame and peanut oils. Microwave if necessary to soften the rice, then serve at room temperature, tossed with sprouts, shredded radishes, chopped scallions, bits of cooked meat or fish if you like and more soy sauce.

94. Cook and cool quinoa. Toss with olive oil, loads of lemon juice, tons of parsley, some chopped tomatoes and, if you like, toasted pine nuts. Call it quinoa tabbouleh.

95. Mix cooked couscous or quinoa with orange zest and juice, olive oil, maybe honey, sliced oranges, raisins or dried cranberries, chopped red onion and chopped almonds. Serve over greens, or not.

96. Cook short-grain white rice in watered-down coconut milk (be careful that it doesn't burn) and a few cardamom pods. While warm, toss with peas (they can be raw if they're fresh and tender), chopped cashews or pistachios, a pinch of chili flakes and chopped raw spinach.

97. Toss cooked, cooled farro, wheat berries, barley or other chewy grain with chopped-up grapes. Add olive oil, lemon juice and thinly sliced romaine lettuce; toss again, with ricotta salata or feta if you want.

98. Toss cooked bulgur with cooked chickpeas, quartered cherry or grape

tomatoes, a little cumin, lots of chopped parsley, and lemon juice.

99. Toss cooked quinoa with fresh sliced apricots, cherries, pecans, and enough lemon and black pepper to make the whole thing savory.

100. Mash a canned chipotle with some of its adobo and stir with olive oil and lime juice. Toss with drained canned hominy, fresh corn cut from the cob (or drained pinto beans), cilantro and green onions.

101. Cook a pot of short-grain rice. While it's still hot, toss with raw grated zucchini, fermented black beans, sriracha, sesame oil, sake and a touch of rice vinegar. Add bits of leftover roast chicken or pork if you have it, and pass soy sauce at the table.

3. Toss the dressing with the grated carrots. Fold in the tomato wedges and herbs. Season with black pepper.

Notes : Keep the dressing noticeably tart — both carrot and tomato are sweet. Pairs with Red Pepper & Doubanjiang Pasta, whose rich, umami sauce wants a fresh, acidic contrast; the sesame oil echoes its fermented-chile character without repeating it.

Mediterranean Lentil Salad

Serves 6

40 minutes to prepare, plus several hours to chill

Source: [43]

2 c	dried lentils
1/4 c	olive oil
1/4 tsp	salt
1 to 2	oranges, peeled and sectioned
1	large clove garlic, crushed
3 Tbsp	fresh lime juice
3 Tbsp	balsamic vinegar (cider vinegar will also work)

Add the lentils and cook very gently in the simmering water, partially covered, until they are tender. (Try to prevent the water from getting agitated while the lentils are cooking, as that will cause them to burst and lose their shape. The goal is to have perfectly cooked lentils—light and distinct.) Cooking time should be around 20 to 30 minutes. check the water level and add more if necessary. Drain the lentils when they are done and gently rinse in cold water. Drain again and place in a large bowl.

2. Add remaining ingredients except bell pepper and fresh herbs, cover tightly, and chill at least 4 hours.

3. Add the bell pepper and herbs within an hour of serving.

3. Combine remaining ingredients except garnish (sesame seeds, cilantro); taste and adjust.

2. Add remaining ingredients and mix on low speed to a shaggy mass. Mix on medium speed to full gluten development.
3. Transfer to an oiled tub and cover. Bulk ferment 90–150 minutes at 25–26 °C, until noticeably risen (not necessarily doubled).
4. Divide into 14 balls of 70 g each. Preform as boules. Rest 10–15 minutes.
5. Prepare 14 squares of parchment paper and brush lightly with oil.

8. Steam, seam-side down, on the parchment paper.

9. Consume within 10 minutes while the buns are still hot.

Pure levain: 200 g levain, 370 g flour, 205 g water, no yeast. Bulk 4–6 hours at 26 °C, then a long final proof.

Fillings

All fillings must be cooled completely and have no free liquid.

Black Sesame (黑芝麻包, *hēi zhīma bāo*). 200 g black sesame paste, 100 g butter, 100 g powdered sugar, pinch of salt.

Tuna (金枪鱼包, *jīnqiāngyú bāo*). 200 g tuna *(if in oil or water: well drained; if fresh, finely chopped and briefly cooked)*, 2 scallions, $1\frac{1}{2}$ tsp soy sauce, $\frac{1}{2}$ tsp sugar, white pepper, 1 tsp sesame oil, 1 tsp neutral oil, $\frac{1}{2}$ tsp grated ginger. Press and dry tuna. Mix all. Use 1–$1\frac{1}{2}$ Tbsp per bao.

Stir in starch slurried in a little cold water, cook briefly. Off heat, fold in sesame. Makes about 420 g; apple pieces should stay distinct.

Apple, black sesame. 400 g apples (peeled, cored, small dice), 20 g butter, 120 g black sesame paste, 15–25 g powdered sugar, 1 g salt.
Cook apples in butter until reduced to about 250 g, keeping the pieces. Cool, mix with remaining ingredients. If loose, add ground toasted sesame.

Pâte Brisée

Makes a 9-inch pie shell

15 minutes

Source: [70]

156 g	butter (11 Tbsp)
2 c	all-purpose flour (335 g ?)
½ tsp	salt
5–6 Tbsp	water

This crust is best for savory fillings. Use pâte sucrée for sweet pies.

The dough can be stored refrigerated for a week or more before baking.

1. Work butter very lightly into flour and salt. This can be done best by working the flour and butter first with the fingers and then lightly and quickly rotating it between the palms of the hands.

2. Make a well in the flour mixture and gradually pour in the water. Use the index finger to stir the liquid quickly into the flour in a spiral fashion, beginning at the inside of the well and gradually moving to the outer edge. The dough should be soft enough to gather up into a ball but should not stick to the fingers or the board.

3. Allow the dough to rest refrigerated from 2 to 36 hours. Cover it with a damp, wrung-out cloth for the shorter period or a piece of foil for the longer one. The resting of the dough breaks any rubbery reactions it might develop when rolled and handled.

4. Roll or press into a pie crust. Bake with filling according to need.

Détrempe

250 g	farine T55
50 g	beurre
5 g	sel
2,5 g	sucre (si usage sucré)
125 ml	eau

1. Mélanger farine, beurre, et sel. Ajouter l'eau. Pétrir brièvement à la main, former un oval, filmer, et mettre au frigo pendant au moins 1 heure.

Tourage

150 g	beurre

1. Malaxer le beurre dans un torchon humide, former un oval, filmer, et mettre au frigo.
2. Rouler la détrempe entre deux feuille de papier sulfarisé pour obtenir un rectangle approximativement 12×20 cm. Rouler le beurre à 12 × 12 cm. Placer le beurre sur la détremple, plier un tiers de la détrempe sur le beurre, puis plier en deux pour créer deux couches de beurre et trois de détrempe.
3. Rouler dans l'autre sens à 12 × 24 cm, plier les 6 cm de chaque bout vers le milieu, puis filmer et remettre au moins une heure au frigo. (Elle peut y rester la nuit.) C'est deux tours.

4. Faire encore deux tours : rouler à 12×18 cm et plier en tiers. Filmer et remettre au frigo au moins une heure. (Elle peut y rester la nuit.)

5. Rouler et former le plat final.

1 c	all-purpose flour
2 Tbsp	sugar

1. Combine flour, sugar, and salt. Work the butter into it as for pastry, using a pastry blender or fingers.
2. Make a well and add the remaining ingredients. Stir with fingers until the mixture forms one blended ball and no longer adheres to the hand. Cover and drefrigerate for at least 30 minutes.
3. Roll to a 1/8-inch thickness as for pie dough.
4. Line the tart pans with the dough. Prick and weight down with beans or pebbles.
5. Back at 400 °F (205 °C) for 7 to 10 minutes or until lightly browned.
6. Unmold and cool on a rack. Fill with fresh fruit.

Food Processor Version

1. Process flour and salt for 20 seconds.
2. Distribute butter evenly and process until the mixture resembles coarse meal, 15 to 20 seconds.
3. With the food processor running, pour the ice water in a steady stream through the feed tube and process just until the dough comes together.

Manual Version

- Whisk flour and salt in a large mixing bowl.
- Rub the butter into the flour with fingertips or cut it in with a pastry blender.
- Sprinkle the water over the mixture while tossing with a fork.

And then...

- Knead the dough several turns on a lightly floured surface to bring it together. Shape into one (or two) thick disks, wrap in plastic wrap, and refrigerate at least 1 hour.
- To roll out the dough, place the chilled dough between two pieces of baking parchment and roll out to a diameter two inches bigger than the size of the pan. Fit to the pan, trim the edges, and keep in the refrigerator until ready to fill. (If pre-baking the crust, refrigerate at least 30 minutes before baking.)

ラーメン

Pour 4 personnes

2 h + repos (1–2 jours) + cuisson (90 secondes)

Source: [56]

4 g	sel
175 ml	eau
350 g	farine T55
50 g	fécule de maïs (ou arrow-root ou tapioca)
4 g	bicarbonate de soude (à défaut de kansui, voir ci-dessous)
	fécule de pomme de terre ou de maïs pour le façonnage

1. Dissoudre le sel dans l'eau. Ajouter la farine, la fécule et le bicarbonate. Former une boule et laisser reposer dans un torchon humide.
2. Mettre dans un sac en plastique et pétrir avec les pieds pour obtenir une pâte lisse. Laisser reposer 10 minutes, puis répéter cette opération 4 fois.
3. Laisser reposer 1 heure en été, 3 heures en hiver.
4. Rouler à 1 cm d'épaisseur. Fariner de fécule. Rouler comme des pâtes italiennes. Former des spaghettis plutôt épais (3–4 sur ma machine à pâte).
5. Laisser reposer 1–2 jours dans un sac en plastique.
6. Faire cuire 90 secondes dans de l'eau bouillante salée. Égoutter et servir.

Kansui (かん水 / 鹹水)

Solution alcaline de carbonates de sodium et de potassium. Elle porte le pH de la pâte à 9–11 : le gluten se raffermit (pâtes élastiques qui tiennent à la cuisson), la farine jaunit sans œufs, et le goût devient celui des ramen. Le bicarbonate de soude est moins alcalin, mais cuit il devient du carbonate de sodium :

$$2\,\mathrm{NaHCO_3} \longrightarrow \mathrm{Na_2CO_3} + \mathrm{CO_2} + \mathrm{H_2O}$$

100 g bicarbonate de soude

1. Étaler sur une plaque. Cuire 1 heure à 120–150 °C. Le poids doit tomber à environ 63 g.
2. Conserver dans un bocal hermétique.

Utiliser 1 % du poids de farine (4 g ici). Plus caustique que le bicarbonate : éviter le contact avec la peau et les yeux.

Ricotta

Fait 350 g de ricotta

15 minutes + 1 heure

Source: [38]

1 litres	lait
$^1/_2$ litre	crème liquide entière
3,3 g	sel
60 ml	acide citrique (jus d'un citron, par exemple)

1. Mélanger le lait, crème, et sel dans une casserole. Chauffer doucement à 90 °C, remuant occasionnellement afin d'éviter la formation d'une peau.
2. Ajouter l'acide citrique. Remuer, puis laisser cailler jusqu'à la séparation du petit lait.
3. Égoutter à travers une mousseline jusqu'à l'obtention de la consistance de ricotta souhaitée (typiquement entre 15–60 minutes).

Notes :

- Le vinaigre blanc peut substituer à l'acide citrique.
- Plus d'acide fait des granulés de lait plus gros.
- La température n'est pas un seuil : le lait caille mieux avec la chaleur et on ne souhaite pas, ici, le faire bouillir.

Roasted Pepper Zucchini Spread

Makes 1 liter

20 minutes (?)

Source: [2]

2	large zucchinis
1	apple
3 cloves	garlic
150 g	sun-dried tomatoes
1 Tbsp	olive oil
	black pepper
	cayenne pepper
	basil

1. Purée everything in a food processor. Serve.

It may be that the flavor improves by the next day. Initially the flavor sequence is a bit strange, with sweetness (apple) followed by saltiness (tomato) followed by garlic.

I roasted one of the zucchinis in order to reduce moisture. It's not clear that this was worth the bother.

I added three or four prunes as sweetener. I don't think this was worthwhile, although it didn't hurt.

The olive oil probably could be omitted without ill effect.

Winter Squash Soup with Fried Sage Leaves

Serves 4–6

1 hr(?)

Source: [50]

$2\frac{1}{2}$ –3 lbs	winter squash
$\frac{1}{4}$ c	olive oil, plus extra for the squash
6	garlic cloves, peeled
12	sage leaves, whole, plus 2 Tbsp chopped
2	onions, finely chopped
	leaves from 4 thyme sprigs or $\frac{1}{4}$ tsp dried
$\frac{1}{4}$ c	chopped parsley
	salt and pepper
2 qts	water or stock
$\frac{1}{2}$ c	Fontina, pecorino, or ricotta salata, diced into small cubes

1. Preheat the oven to 375 °F. Halve the squash and scoop out the seeds. Brush the surfaces with oil, stuff the cavities with the garlic, and place them cut side down on a baking sheet. Bake until tender when pressed with a finger, about 30 minutes.

2. Meanwhile, in a small skillet, heat the $\frac{1}{4}$ cup oil until nearly smoking, then drop in the whole sage leaves and fry until speckled and dark, about 1 minute. (They will burn 15 seconds or so later if not removed promptly!) Set the leaves aside on a paper towel and transfer the oil to a wide soup pot.

3. Add the onions, chopped sage, thyme, and parsley and cook over medium heat until the onions have begun to brown around the edges, 12 to 15 minutes. Scoop the squash flesh into the pot along with any juices that have accumulated in the pan. Peel the garlic and add it to the pot along with $1\frac{1}{2}$ tsp salt and the water and bring to a boil. Lower the heat and simmer, partially covered, for 25 minutes. If the soup becomes too thick, simply add more water to thin it out. Taste for salt.

4. Depending on the type of squash you've used, the soup will be smooth or rough. Puree or pass it through a food mill if you want a more refined soup. Ladle it into bowls and distribute the cheese over the top. Garnish each bowl with the fried sage leaves, add pepper, and serve.

Broccoli and Tofu in spicy peanut sauce

Serves 4–5

1 hour

Source: [42]

Peanut Sauce:

1/2	c	peanut butter (no sugar)
1/2	c	hot water
1/4	c	cider vinegar
2	Tbsp	tamari sauce
2	Tbsp	blackstrap molasses
1/4 –1/2	tsp	cayenne pepper

1. In a small suacepan, whisk together the peanut butter and the hot water until you have a uniform mixture.
2. Whisk in the remaining ingredients. Set aside.

The Sauté:

1 c	rice
1 lb	fresh broccoli
3 Tbsp	peanut oil
2 tsp	freshly-grated ginger root
4	medium cloves garlic, minced
1 lb	tofu, cut into small cubes
	salt
2 c	onion, thinly sliced
1 c	coarsely chopped raw peanuts
2–3 Tbsp	tamari sauce
2	scallions, freshly minced

1. Start cooking rice.

2. Cut off the bottom half-inch of the broccoli stems. Shave off the tough outer skins of the stalks with a sharp paring knife or a vegetable peeler. Cut the stalks diagonally into thin slices. Coarsely chop the flowerettes. Set aside.

3. Begin heating the wok (or a large, heavy skillet). When it is hot add 1 Tbsp of the peanut oil Add half the ginger and half the garlic. Salt lightly. Sauté over medium heat for 1 minute, then add the tofu chunks. Turn the heat up a little and stire-fry the tofu for 5–8 minutes. Transfer it, including whatever liquid it might hae expressed, to the saucepanful of peanut sauce. Mix together gently.

4. Wipe the wok with a paper towel and return it to the stove to begin heating once again. Add the remaining 2 Tbsp of oil to the hot wok and follow suit with the remaining ginger and garlic. Salt lightly. Add the onions and grind in some fresh black pepper. Sauté, stirring frequently over medium heat until the onions are soft, above 5 minutes.

5. On another burner, begin heating the peanut-tofu sauce on a very low flame. It shouldn't actually cook—it only needs to be warmed through.

6. Add the broccoli and the chopped peanuts to the wok. Add 2–3 Tbsp tamari sauce and stir-fry over medium-high heat until the broccoli is bright green and just ender, about 5 minutes.

7. Pour the heated peanut sauce over the sauté. Toss gently until everything is coated with everything else. Sprinkle in the minced scallions as you toss.

8. Serve over rice.

Gnocchi

Serves 4 people

30 minutes plus an hour to bake potatoes and time to make sauce

Source: [62], Mark Bittman, 21 February 2013

700	g	starchy potatoes (e.g., charlotte, russet)
		salt
		pepper
1/2 – 3/4	c	flour

1. Heat oven to 200 °C (400 °F). Bake potatoes until tender, about an hour. Immediately split them open to let the steam escape. When you can handle the potatoes, scoop out their flesh.
2. Bring a large pot of water to a boil and salt it. Pass potato flesh through a ricer or food mill, and season to taste. Sprinkle 1/2 cup flour on a clean counter or cutting board, and knead the potatoes with it, sprinkling in the remaining 1/4 cup flour, until the dough just comes together. Pinch off a piece of the dough, and boil it to make sure it will hold its shape. If it does not, knead in a bit more flour (no more than necessary), and try again; the gnocchi will float to the top and look a little ragged when ready.
3. Roll a piece of the dough into a rope about 1/2-inch thick, then cut the rope into 1/2-inch lengths. Score each piece by rolling it along the tines of a fork; as each piece is ready, put it on a baking sheet lined with parchment or wax paper; do not allow the gnocchi to touch one another.
4. Add gnocchi to the boiling water a few at a time, and stir gently; adjust the heat so the mixture doesn't boil too vigorously. A few seconds after they rise to the surface, the gnocchi are done; remove them with a slotted spoon or mesh strainer, and finish with any of the sauces below.

Flavors

Beet Gnocchi: Peel and grate 1/2 pound beets. Cook in 2 tablespoons olive oil over medium-low heat, seasoning to taste, until very soft, 25 to 30 minutes. Transfer to food processor, and purée until smooth. Stir into the mashed potatoes in Step 2 of the master recipe (you'll most likely need an extra 1/4 cup flour).

Spinach Gnocchi: Roughly chop 8 ounces spinach. Cook in 2 tablespoons olive oil over medium-low heat, seasoning to taste and stirring, until soft and wilted, about 5 minutes. Rinse under cold water and squeeze dry. Transfer to food processor and purée until smooth. Stir into the mashed potatoes in Step 2 of the master recipe (you'll most likely need an extra 1/4 cup flour).

Carrot Gnocchi: Peel and grate 1/2 pound carrots. Cook in 2 tablespoons olive oil over medium-low heat, seasoning to taste, until very soft, 20 to 30 minutes. Transfer to food processor and purée until smooth. Stir into the mashed potatoes in Step 2 of the master recipe (you'll most likely need an extra 1/4 cup flour).

Sauces

Tomato Sauce: Cook a small chopped onion in olive oil until soft. Add minced garlic, 3 to 4 cups chopped tomatoes, canned or fresh, and salt and pepper. Cook at a steady bubble until "saucy." If the sauce becomes too thick, add a splash of the gnocchi cooking water before serving. Garnish with torn basil and/or grated Parmesan.

Brown Butter, Sage and Parmesan: Put 4 tablespoons butter and a handful of fresh sage leaves (40 wouldn't be too many) in a skillet over medium heat. Cook until the butter is light brown and the sage is sizzling, about 3 minutes. Toss with the gnocchi, some of their cooking water and loads of grated Parmesan.

Tips

A phrase often used (overused, really) to describe well-made gnocchi is "light as a cloud." It's not an especially instructive description for a piece of real food, and for cooks hoping to try their hands at gnocchi for the first time, it can be downright daunting.

It's true that gnocchi requires a bit of technique, but achieving that cloudlike texture —"light" is perhaps a simpler, less intimidating word —isn't actually that difficult.

It's all in the dough. There are just a few keys to remember: 1) Use starchy potatoes, like regular old russets (baking potatoes); nothing fancy. It's the starch

from the potatoes —along with the gluten from the flour —that holds the dough together. 2) You don't want overcooked, waterlogged potatoes; the wetter they are, the more flour you'll need. I bake them whole, which is effortless, but you could also boil them whole and unpeeled. If time allows, you might dry them out in a low oven for a little while, once they're fully tender. 3) Use as little flour as you can get away with to make the dough hold its shape. Add the flour a little at a time, and test-boil a piece of dough —even if you think it's not ready yet —to see if it holds together. 4) Be gentle when mixing and kneading; the idea is to avoid overdeveloping the gluten —which is the offense most likely to make your gnocchi decidedly un-cloudlike.

Another option is to add an egg, which makes success more likely but —and reasonable people disagree about this —makes the final product a tad heavier.

Once you've got the basic recipe down, you can start messing around with other vegetables in combination with potatoes. Carrots, beets and spinach are all terrific —especially for their colors —as are squash, parsnips, sweet potatoes, chard and kale. Cook them in olive oil until soft, purée them in the food processor and mix them into the cooked potatoes —because the vegetables carry some extra moisture, you'll most likely need a little more flour.

Whatever version you make, all it needs is a simple sauce —and not too much of it. The gnocchi is the star —or should I say, the cloud?

麻酱凉面

má jiàng liáng miàn

Serves 2

20 minutes (sauce and noodles can be made hours ahead)

Source: [63]

45 g	Chinese sesame paste, or tahini
1½ Tbsp	light soy sauce
1 Tbsp	Chinkiang black vinegar
1 tsp	sesame oil
1–2 tsp	辣椒油 (chili oil), to taste
1 tsp	sugar
1 clove	garlic, finely grated
½ tsp	ginger, finely grated
3–5 Tbsp	cold water
200–220 g	dried wheat noodles (Chinese wheat noodles, or ramen)
½	cucumber, julienned
1–2	scallions, finely sliced (only 1 if large bulb)
	toasted sesame seeds
	roasted peanuts, crushed (optional)
	coriander (optional)

1. Mix sesame paste, soy sauce, vinegar, sesame oil, chili oil, sugar, garlic and ginger. Add water gradually until creamy and pourable.
2. Cook noodles until just done. Drain, rinse under cold water, drain very well.
3. Toss noodles with sauce, cucumber and garnishes.

Notes : Chinese sesame paste gives a deeper toasted flavour than tahini; with tahini, add a little more sesame oil or 1 tsp toasted sesame seeds.

For make-ahead: refrigerate sauce (it thickens; loosen with a splash of water before serving) or leave at cool room temperature, which keeps it easier to mix in. Cut cucumber and spring onion ahead and refrigerate. Noodles can be cooked ahead: after draining, toss with 1 tsp neutral oil, cover, refrigerate — don't sauce them until serving, or they turn drier and softer. At serving: loosen sauce, toss noodles with sauce, add cucumber and garnishes.

6 Tbsp	olive oil
4 c	chopped onion
7–8 c	packed mixed bitter greens, chopped coursely
	salt

4. Drain pasta and add directly to the sauce. Mix thoroughly.

6. Serve immediately on warmed plates, with a sprinkle of Parmesan and black pepper.

Any combination of bitter greens works fine: kale, mustard, collard, dandelion, escarole, chard, spinach, etc.

2. Crush garlic cloves into a large bowl. Add oil and mix. Coursely chop tomatoes, burrata, and basil, adding to the garlic bowl. Add salt and freshly ground pepper to taste. Note that the cream in the burrata will give the mixture a creamy feel once tossed.
3. Set a large pot of salted water to boil.
4. Roll the pasta dough (to index 5 on a Kitchenaid pasta roller), cut as spaghetti in 10–15 cm strands. Drop into boiling water. Cook until done, one to two minutes. Immediately strain.

Red Pepper and Doubanjiang Pasta

2	leek (white and light green), thinly sliced, or 2 onions
3–6	red bell peppers, chopped
1 clove	garlic, minced
1–2 tsp	doubanjiang
160–180 g	pasta
	pasta water
	lemon juice or wine vinegar, to taste
	salt

1. Melt 2 Tbsp butter over medium heat. Sweat the leek or onion until soft, 5–7 min.
2. Add the peppers. Cook, stirring occasionally, until soft and starting to concentrate, 15–20 min.
3. Push vegetables aside. Add doubanjiang to the exposed butter and fry 30–60 sec until fragrant. Stir in garlic for the last 15 sec. Mix everything together.
4. Cook pasta in salted water. Reserve a mugful of pasta water before draining.
5. Blend the pepper mixture smooth with a splash of pasta water and the remaining 1 Tbsp butter.
6. Toss the sauce with the pasta, loosening with pasta water to coat. Sharpen with a little lemon juice or vinegar if the peppers taste too sweet. Taste before salting — the doubanjiang carries most of it.

Notes : Serve with Carrot and Tomato Salad, kept sharply acidic to contrast this dish's sweetness and richness.

Whole wheat pasta

Serves 3–4

20 minutes

Source: [2]

200 g	whole wheat flour
80 g	water

1. Mix, form a ball, and let sit 10–15 minutes. The dough may be wrapped well (e.g., in plastic wrap) and refrigerated if it won't be used immediately after the short rest.
2. Roll to a thin strip so that it can pass through the pasta rollers.
3. Form noodles and cut. At this point, but not before, it may be allowed to dry. If the noodles will not be dropped immediately in boiling water, dust with flour before cutting to avoid their sticking together.
4. Cook in salted boiling water until *al dente*, typically a few minutes, depending on pasta thickness.

160–170 g	pasta
2	onions, thinly sliced

	smoked paprika or chilli flakes (optional)

1. Pat tofu dry, cut into 2 cm cubes. Toss with 1 Tbsp soy sauce, then with the cornflour.
2. Fry in a generous film of oil over medium-high heat, turning occasionally, until deeply golden on several sides, 7–10 min. Remove and reserve.
3. Cook pasta in salted water. Reserve a mugful of pasta water before draining.
4. In the tofu pan, fry the onions in a little more oil with a pinch of salt, 6–8 min, until soft and browning. Add garlic for the last minute.
5. Turn heat down. Add mustard, crème fraîche, black pepper, and about 60 ml pasta water. Stir into a loose, glossy sauce. Add ½ tsp soy sauce and the lemon juice or vinegar. Add paprika or chilli flakes if using.

6. Add drained pasta and toss, adding pasta water until the sauce coats it rather than sitting thick. Fold in two-thirds of the tofu; top with the rest so some stays crisp.

7. Taste before salting: pasta water, mustard, and soy may already be enough.

1. **Poolish:** Combine flour and water with a pinch of yeast (first three ingredients), stir well and ferment 12 hours.

2. **Dough:** Combine water and yeast. Add poolish. Add flour. Mix to shaggy mass. Allow to autolyse, 30 minutes.

3. Add salt and olive oil. Mix to medium gluten development. Cover and allow to ferment $2\frac{1}{2}$ hours, with 1 book fold after each hour. Check for full gluten development. If the dough gasses too quickly, put it in the refrigerator for bulk fermentation.

4. Drizzle a baking pan copiously with oliver oil. The oil will fry the dough whilst baking, which is key for the characteristic crispy taste. Spread the dough in the pan by stippling with fingers. Allow to proof $1\frac{1}{2}$ –2 hours (27 °C) or up to 3 hours (21 °C), stippling once again mid-proof.

5. Bake at 220 °C for about 20 minutes. Cool for several minutes in the pain so that the oil re-absorbs and the crust becomes crisp, then transfer to a wire rack. Serve at room temperature or while still very slightly warm.

Toppings

- Very thin smear of tomato paste diluted with olive oil, with a touch of chili flakes.
- Red lentil (about a half cup dry + 1 cup water to cook), on the dry side of cooked.
- Onion (700 g / 4 onions) cooked in olive oil with a pinch of salt until nicely golden.
- Feta (crumbled, on the light side)
- Semi-dried tomato (chopped, not too heavy)
- **(after baking)** Red onion marinated in red wine vinegar, lightly rinsed, pre-dressed with olive oil.
- 10–15 pistachios, crushed irregularly, maybe lightly toasted.
- A couple mint leaves (very sparingly), torn.

Potato Torte

Serves 12–16

1 hour to prepare, 1 1/4 hour to bake, at least 1 hour to cool

Source: [72]

2	medium white onions, chopped (about 300 g)
3 T	olive oil
4 cups	canned Italian plum tomatoes, drained and coarsely chopped (about 3 kg canned before draining)
	Freshly ground black pepper to taste
	Butter for pan
8	large potatoes, boiled and peeled (about 1300 g)
4	large eggs, lightly beaten
1 1/4 cups	diced fresh mozzarella cheese (about 220 g)
1 1/4 cups	diced provolone cheese (about 140 g)
1 cup	freshly grated Parmesan or Asiago cheese (about 110 g)
$\frac{2}{3}$ cup	fresh parsley, minced
$\frac{1}{2}$ cup	fresh oregano; or 1 T dried oregano, crumbled
2 T	extra-virgin olive oil

1. Preheat the oven to 350 F.
2. Saute the onion in 3 T olive oil until soft and translucent. Add the tomatoes and pepper to taste. Cook over medium heat until the tomato sauce is thick and smooth, 10 to 15 minutes.
3. Mash the potatoes until smooth. Beat in the eggs, mozzarella, provolone, Parmesan or Asiago, parsley, and oregano. Mix well.
4. Generously butter a 12-inch springform pan (or a 9 × 13 metal pan). Spread one-third of the potato mixture evenly over the bottom of the pan. Cover with half of the tomato sauce. Smooth on another one-third of the potato mixture, and cover with the rest of the sauce. Top with the remaining potato mixture.

5. Drizzle the torte with extra-virgin olive oil and bake at 350 F for 1 hour. Cover the top with foil and bake 15 to 20 minutes more, or until a knife tests clean.

6. Cool to room temperature and serve, or refrigerate the torte several hours or overnight and serve at room temperature or chilled.

Prakus

1 hour(?) plus about two hours to cook

Source: [4, 37]

Original Recipe

This recipe needs to be converted: some combination of lentils, wheat, eggs, mushroom, etc., ought to make a good center ball.

1	cabbage
2 lbs	ground meat
	salt and pepper
1	egg
	bread crumbs
1	onion
1 can	tomato soup
1	large can tomato sauce
2 Tbsp	vinegar
2 Tbsp	sugar

1. Core cabbage. Boil cabbage to make it less brittle. Keep water.
2. Combine meat, bread crumbs, egg, salt, and pepper.
3. Sauté onions in large cooking pot. Add tomato soup, tomato sauce, vinegar, and sugar. Add some water from cabbage.
4. Form meatballs and wrap in cabbage leaves. Place in sauce. Add more water if needed.
5. Simmer until cabbage is brownish and cooked, a couple hours.

Vegetarian Prakus

Source: [2]

1	cabbage
2 c	red lentils, dry, cooked
1 c	green lentils, dry, cooked
	butter
2	red onions
3	cloves garlic
10 oz	mushroom, chopped
28 oz	crushed tomato
8 oz	tomato paste
1	potato, boiled, lightly mashed
$1\frac{1}{2}$ Tbsp	garam masala
$1\frac{1}{2}$ tsp	ground cloves
	salt and pepper
2	eggs
2 Tbsp	vinegar
2 Tbsp	sugar

1. Core cabbage. Boil cabbage until soft. Do not overboil or the leaves will not have the strength to be used as wrappings. Reserve the water from the cabbage, but remove the cabbage so it can drain and cool.

2. Cook lentils. Note that green lentils take longer to cook, so either start them first and then add red or else cook separately.

3. Sauté onions in butter. Add garlic. Add mushrooms and simmer.

4. Add crushed tomato, tomato paste, potato, and spices. Add some of the water from the cabbage if necessary. Simmer ten more minutes.

5. Add lentils, remove more solid portion to a bowl and let cool. Reserve more liquid portion for sauce. The sauce will have vegetables and lentils in it.

6. Add eggs and mix well.

7. Form balls and wrap in cabbage leaves. Place in sauce. Add more cabbage water as needed to cover all the wrapped balls.

8. Simmer until cabbage is brownish and cooked, a couple hours.

This can also be made by shredding the cabbage instead of using it as a wrapping. The result is a stew. To make as a stew, instead of boiling the cabbage, shred it and add with a little water after the mushrooms are cooked but before adding the tomato mixture. Cook until the cabbage just begins to wilt, then add tomato, etc.

Don't form balls, but do let cook over low heat for an hour or more.

I consider this recipe still in the experimental stage.

Miso tare

80 g	red miso
60 g	white miso

Shōyu ramen

Pour 4 personnes

day before: stock + pork (mostly unattended, 3 h) ; serving day: finish + assemble (45 min)

Source: [63]

Chicken stock (day before)

1.5–2 kg	chicken carcasses/backs/necks, plus a few wings
2.5–3 L	cold water
1	onion, halved
4–5 cm	ginger, sliced
4 cloves	garlic, crushed
	green parts of 3–4 spring onions

1. Bring water and chicken slowly toward a simmer, skimming foam.
2. Add onion, ginger, garlic and spring-onion greens. Maintain a very gentle simmer 3 h – just occasional bubbles.
3. Strain. Don't salt. Aim for 1.7–2 L, reduce if you have more. Cool and refrigerate.

Chāshū – braised pork belly (day before)

300–400 g	boneless pork belly, skin removed
60 ml	soy sauce
60 ml	sake
40 ml	mirin
12–15 g	sugar
150–200 ml	water
2 cm	ginger, sliced
2 cloves	garlic, crushed
1	spring onion, roughly chopped

1. Brown the pork belly fatty side first, no added oil.
2. Add remaining ingredients; liquid should come halfway to two-thirds up the meat, not necessarily submerge it.
3. Simmer partially covered 1½–2 h, turning every 20–30 min, until a skewer meets light resistance, not rubbery (core 88–92 °C).
4. Cool in the braising liquid, then refrigerate both together (cold pork slices far more cleanly).

Tare (shōyu tare, day before)

100 ml	Japanese soy sauce
30 ml	mirin
20 ml	sake
1 tsp	sugar
1 tsp	rice vinegar (optional)

1. Combine, bring briefly to a simmer, remove from heat. Reserve.

Eggs (day before)

4	eggs
60 ml	soy sauce
60 ml	water
30 ml	mirin
15–30 ml	sake

1. Cook $6\frac{1}{2}$ –7 min in simmering water, transfer immediately to cold water, peel.
2. Marinate in the soy/water/mirin/sake mix at least 1–2 h, ideally overnight.

Dashi and finishing the broth (serving day)

10 g	kombu
3–4	dried shiitake
15–20 g	katsuobushi

1. Lift the solidified fat off the cold stock; reserve it for the aromatic oil.
2. Put the kombu and shiitake into the cold stock, leave 30–60 min. Heat gently, removing the kombu before it boils (around 60–70 °C). Simmer the shiitake 10 min.
3. Turn off heat, add katsuobushi, steep 5 min. Strain. Slice the shiitake caps for topping.

Aromatic oil (serving day)

2 tbsp	reserved chicken fat
1	spring onion, finely sliced
	a little ginger or garlic, sliced

1. Warm the fat gently with the spring onion and ginger/garlic, 3–5 min, until fragrant. Strain.

Finishing the pork (serving day)

1. Lift the solidified fat off the braising liquid. Strain and taste it – it can be used to adjust the tare.
2. Slice the cold pork (4–5 mm). Warm the slices briefly in some braising liquid just before serving, or place them directly into the hot bowl.

Assembly

500–600 g	fresh ramen noodles
	nori, quartered
	spring onion, finely sliced
	menma, mushrooms, pak choi, spinach or bean sprouts (optional)

1. Before cooking the noodles, make a test bowl: 10 ml tare + 120 ml broth. Taste and adjust the tare-to-broth ratio (25–35 ml per 350 ml broth, depending on stock and soy sauce).
2. Heat the bowls. Bring the broth almost to a boil.
3. Cook the noodles separately, drain very thoroughly, put them directly into the bowls.
4. In each bowl: 25–30 ml tare + 1–2 tsp aromatic oil + 350 ml hot broth, then the noodles.
5. Top with sliced pork, half an egg, shiitake, spring onion, nori and chosen vegetables.

5. Servir aussitôt sur du pain avec du coriandre ciselé.

Cette recette varie énormément de personne à personne. C'est à faire selon son gré du moment.

Je mets le même nombre d'oeufs que le nombre de personnes que je compte servir. Seule, je pose les oeufs directement sur les tomates dans la poêle à la fin. En context plus formelle, je ferais des oeufs pochés.

鱼香茄子

yú xiāng qiézi

Serves 3–4

15 minutes salting, 20–30 minutes frying, 5 minutes in the wok

Source: [63]

2	Chinese eggplants (long, thin)
	salt
	neutral oil for frying (2–3 cm in a Dutch oven)
1 Tbsp	light soy sauce
1 Tbsp	Chinkiang black vinegar
1–2 tsp	sugar
2–3 Tbsp	water or stock
1 tsp	cornstarch (optional)
½ –1 tsp	green Sichuan peppercorns, lightly crushed
1 Tbsp	doubanjiang (Pixian if possible)
50–80 g	minced pork (optional)
4–6	garlic cloves, finely chopped
1 Tbsp	ginger, finely chopped
2	scallions, whites and greens separated
	chili oil (optional)

1. Cut eggplant into batons 5–7 cm long, no thicker than a thumb. Salt lightly, rest 10–15 minutes, pat dry.
2. Heat oil to 170–180 °C (340–355 °F). Fry eggplant in small batches, keeping the oil bubbling actively, until slumped, flexible, slightly translucent and creamy when squeezed (3–5 minutes, longer if the oil cools). Drain.
3. Mix soy sauce, vinegar, sugar, water and cornstarch.
4. Strain the frying oil into a jar, keeping 1–2 Tbsp for the wok.

5. Medium-high heat. Fry peppercorns until fragrant (5–10 seconds). Add doubanjiang and fry until the oil turns red (20–40 seconds). Add pork, if using, and cook through. Add garlic, ginger and scallion whites; fry until fragrant without browning the garlic (20–60 seconds).

6. Add the sauce, then the eggplant. Toss to coat and reduce 1–3 minutes, until almost no free liquid remains.

7. Finish with scallion greens, chili oil, and optionally a splash of vinegar and a pinch of freshly ground peppercorns.

Notes : The eggplant must be fully cooked before saucing, or it soaks up the sauce and turns greasy. Doneness comes late and suddenly: spongy, then oil-logged, then abruptly silky. If it is slow, cut smaller or fry smaller batches.

The sauce is a glaze, not a gravy: a piece lifted with chopsticks should not drip. Err towards less liquid; a spoonful of water can be added at the end.

The strained frying oil keeps 2–4 weeks in a dark jar (3–6 uses); discard if sticky or rancid. It will carry a faint Sichuan aroma.

Source: [63]

250–300 g	fresh thick wheat noodles (4–5 mm), or dough below
2 Tbsp	light soy sauce
2 Tbsp	Chinese dark brown sugar (or 1½ Tbsp molasses + 1 Tbsp sugar)
2 Tbsp	chili oil (辣椒油), with sediment
1 tsp	sesame paste
2–3 cloves	garlic, finely grated
½ tsp	ground roasted Sichuan pepper
½ tsp	sesame oil
1–3 Tbsp	noodle cooking water
½ tsp	black vinegar (optional)
	pinch MSG (optional)
	scallions, chopped (optional)
	toasted sesame seeds, to finish

1. If making the dough: mix 300 g bread flour, 150 g water, 3 g salt. Knead 8–10 minutes until firm. Rest 30 minutes, knead briefly, rest another 30 minutes. Roll into ropes finger-thick, cut into 20–25 cm lengths. The noodles will expand somewhat in water.

2. Boil the noodles until chewy but cooked through (fresh: about 5–7 minutes). Reserve a few tablespoons of cooking water.

3. Whisk together the the remaining ingredients until smooth. Thin with cooking water until it coats a spoon (but still quite thick) as needed.

4. Drain noodles, toss vigorously with the sauce until every strand is coated. Top with sesame seeds and scallions. Serve immediately.

2. Faire une abaisse de 4 cm d'épaisseur et la découper en 6 bandes (selon la taille de la tourtière). Les badigeonner d'un peu de beurre fondu, les saupoudrer de sucre, de poudre d'amandes, de cannelle, et de raisins secs.
3. Rouler les bandes de pâtes et les dresser sur une tourtière, en mettant un "escargot" au centre. Laisser lever 30 minutes. Dorer à l'oeuf et faire cuire à four moyen environ 45 minutes. Après cuisson recouvrir avec le sucre glace imprégné du kirsch.

Recette originelle : Doerflinger propose 500 g de farine, 100 g d'amandes, et 100 g de raisins secs. Elle ne met pas sucre en poudre avec la cannelle.

1 hour plus several hours to set

Source: [15]

4		egg yolks
1/2	c	sugar
2 1/2	c	heavy cream
6	oz	unsweetened chocolate, broken in chunks

1. Beat egg yolks until light. Gradually add sugar.
2. Heat one cup of the cream over low heat until warm. Gradually add half to the egg mixture and mix, then combine back to the warm cream.
3. Cook over low heat, stirring constantly, until mixture thickens.
4. Let cool several minutes, then add chocolate and stir until chocolate is melted and mixture is uniform. Cool until no longer warm.
5. Beat remaining cream until stiff. Mix half into chocolate, then fold the remainder into the chocolate.
6. Spoon into cups and refrigerate for at least several hours to set.

Notes:

- I found the chocolate mixture to be too thick, so I added two or three heaping tablespoons of ricotta.
- The original recipe suggested ten minutes cooling before adding the chocolate and two hours of cooling in the refrigerator before adding the cream. This seemed orders of magnitude excessive to me: a couple minutes sufficed.
- Before refrigerating, grate some 85% chocolate on top and maybe a tiny zest of orange rind for color.

Chocolate Mousse

Serves 5

1 hour; plus 6 hours to set

Source: [44]

5	eggs
1 ½ tsp	vanilla
2 Tbsp	water (or liqueur)
5 oz	dark chocolate
2 Tbsp	unsalted butter
½ pint	heavy (whipping) cream

1. Separate eggs. Leave whites in whipping bowl. Put yolks (base) in steel bowl. Add vanilla and water. Beat. Heat on high; keep moving so it doesn't scramble, util ribbon stage (waves stay). Stir until cool. (Add water if it starts scrambling as it cools.)
2. The above can be done more sanely over a double boiler, but it still needs fast whipping (not simple stirring) to keep it from scrambling.
3. Melt chocolate with butter. Stir. Cool. Add to base.
4. In a new bowl, whip cream. When all is cool, beat egg whites.
5. Beat 1/4 whites into base. Fold in remainder. When 3/4 folded, fold in whipped cream. Let rest six hours.

Notes:

- About one egg per person provides a nice serving size, less per person is probably more reasonable.
- More butter makes it firmer for use in pastry layers.

Chocolate Orgasms

Makes 9–12 large brownies

30 minutes plus 30 minutes to bake, 1 hour to cool, one day to set

Source: [71]

Brownies

$3\frac{1}{2}$	oz	unsweetened chocolate
6	oz	unsalted butter, at room temperature
$1\frac{1}{2}$	c	sugar
$\frac{3}{4}$	tsp	vanilla
3		large eggs, at room temperature
$\frac{3}{4}$	c	plus 2 Tbsp flour

1. Preheat oven to 350 F. Lightly grease an 8 inch square pan with butter or vegetable oil.

2. Melt the chocolate and butter in the top of a double boiler placed over simmering water. Cool the mixture for 5 minutes.

3. Place the sugar in a medium-size mixing bowl and pour in the chocolate mixture. Using an electric mixer on medium speed, mix until blended, about 25 seconds. Scrape the bowl with a rubber spatula.

4. Add the vanilla. With the mixer on medium-low speed, add the eggs one at a time, blending after each addition until the yolk is broken and dispersed, about 10 seconds. Scrape the bowl after the last egg and blend until velvety, about 15 more seconds.

5. Add the flour on low speed and mix for 20 seconds; finish the mixing by hand, being certain to mix in any flour at the bottom of the bowl.

6. Spread the batter evenly in the prepared pan.

7. Bake the brownies on the center oven rack until a thin crust forms on top and a tester inserted in the center comes out with a moist crumb, 25 to 30 minutes.

8. Remove the pan from the oven and place it on a rack to cool for 1 hour before cutting the brownies. Serve the next day (it takes a day for the flavor to set).

Frosting

1	recipe	of brownies, above
1 1/2	oz	unsweetened chocolate
1/4	c	evaporated milk
1/3	c	sugar

1. Prepare the brownies and allow them to cool completely. Don't cut them yet.

2. To prepare the frosting, melt the chocolate in the top of a double boiler placed over simmering water.

3. Pour the evaporated milk into an electric blender and add the sugar and the melted chocolate. Blend the frosting on medium-low speed until it thickens, about 50 seconds (the sound of the machine will change when this process occurs).

4. Using a frosting spatula, spread the frosting evenly over the surface of the cooled brownies, and allow them to sit for 1 hour before cutting.

Chocolate Ricotta Spread

15 minutes

Source: [2]

400 g	dark chocolate
400 g	ricotta
	cinnamon or orange extract

1. Melt chocolate. While mixing ricotta with an electric mixer on high, slowly pour in chocolate. Add some cinnamon or orange extract if desired.
2. Serve on bread.

The goal is to avoid melting the ricotta while making this. To that end, the chocolate should be as cool as possible while still being liquid and the cheese should be at room temperature to avoid making the final product too hard.

The spread will separate as it is cooled and warmed.

Notes: Beat with an electric mixer, but do not whip, the ingredients. Something about the added density gives the brownies a more intense chocolate flavor and a better crust. The original recipe calls for chilling the brownies in a cold water bath immediately on exit from the oven.

Reduce speed to low, add dry ingredients and mix until just combined, 5 to 10 seconds. Drop chocolate pieces in and incorporate them without breaking them. Press plastic wrap against dough and refrigerate for 24 to 36 hours. Dough may be used in batches, and can be refrigerated for up to 72 hours.

3. When ready to bake, preheat oven to 350 °F (175 °C). Line a baking sheet with parchment paper or a nonstick baking mat. Set aside.

4. Scoop 6 3 1/2-ounce (100 g) mounds of dough (the size of generous golf balls) onto baking sheet, making sure to turn horizontally any chocolate pieces that are poking up; it will make for a more attractive cookie.

Sprinkle lightly with sea salt and bake until golden brown but still soft, 18 to 20 minutes. Transfer sheet to a wire rack for 10 minutes, then slip cookies onto another rack to cool a bit more. Repeat with remaining dough, or reserve dough, refrigerated, for baking remaining batches the next day. Eat warm, with a big napkin.

Détrempe

75 g	beurre
100 g	d'eau
1.5 g	vinaigre blanc
10 g	fleur de sel
235 g	farine

1. Faire ramollir le beurre au four micro-ondes afin de le rendre pommade.
2. Dans le bol d'un robot muni du crochet, faire la détrempe en mélangeant les ingrédients.
3. Mettre en carré sur une plaque recouverte d'une feuille de papier siliconé, filmer et laisser reposer au réfrigérateur pendant 1 heure.

Pâte feuilletée inversée

1. Enchâsser la détrempe (2) dans le Beurre manié (1), les deux préparations doivent avoir une texture identique. Étaler la pâte en long et donnez 2 tours doubles à 2 heures d'intervalle en mettant la pâte au réfrigérateur entre chaque tour. Puis 1 tour simple avant de détailler. On peut stocker la pâte feuilletée plusieurs jours au réfrigérateur à deux tours doubles.

Crème pâtissière

5 g	farine
1	jaune d'oeuf
100 g	lait frais entier
15 g	sucre semoule
10 g	beurre
20–40 g	chocolat (coeur de guanaja) légèrement chauffé mais pas fondu *(si au chocolat)*
20 g	poudre de cacao *(si au chocolat)*

1. Tamiser ensemble la farine et mélanger avec le jaune d'oeuf.
2. Faire chauffer le lait et le sucre semoule et verser sur le premier mélange.
3. Remettre l'ensemble dans la casserole. Porter la crème pâtissière à 82 °C *(originelle : à ébullition et laisser cuire pendant 5 minutes en mélangeant vivement à l'aide d'un fouet).*
4. Faire refroidir, à environ 50 °C. Ajouter le beurre, chocolat, et poudre de cacao; mélanger et faire refroidir complètement au réfrigérateur avant utilisation.

Crème d'amande

100 g	beurre
100 g	sucre glace
100 g	poudre d'amande blanche
1	oeuf
10 g	crème
120 g	crème patissière
10 g	grand marnier
10 g	poudre de cacao *(si au chocolat)*

1. Dans le bol d'un robot muni de la feuille ou dans une terrine, malaxer le beurre sans le faire foisonner, puis ajouter tous les ingrédients un à un en continuant de mélanger à petite vitesse. Utiliser aussitôt ou réserver au réfrigérateur.

N.B. : le beurre ainsi que l'ensemble de la préparation ne doivent pas être foisonnée, sinon, lors de la cuisson, la crème d'amandes gonfle et retombe aussitôt de façon irrégulière.

Dorure

1	oeuf
$^1/_2$	jaune d'oeuf
1	pincée sel

1. Dans un bol fouetter avec le pinceau à pâtisserie l'oeuf entier avec le demi-jaune et le sel.

Montage

1. Couper la pâte en deux. Etaler chaque pâton sur le plan de travail fariné en forme de carré de 2 mm d'épaisseur. À l'aide d'un petit couteau planté droit dans la pâte, découper dans chacun un disque de 28 cm de diamètre. Balayer la pâte pour retirer l'excédent de farine.

2. Retourner sur l'autre face (le dessous d'une abaisse de pâte est toujours plus lisse est parfait que le dessus) un premier disque de pâte sur la plaque à pâtisserie recouverte de papier siliconé. Dessiner légèrement sur la pâte un cercle à 3 cm des bords du disque afin de délimiter la surface sur laquelle la crème d'amande va s'étaler. À l'aide d'un pinceau trempé dans de l'eau froide badigeonner la pâte, à 1 cm du bord du disque afin d'éviter que l'eau coule sur les côtés. Etaler la crème d'amande et égaliser le dessus avec le dos d'une cuillère. Enfouisser la fève à 1 cm des bords de la crème d'amande.

3. Retourner sur l'autre face le second disque de pâte. Le poser exactement sur le premier où la crème d'amande est étalée. Du bout des doigts appuyer sur les bords des deux disques de pâte afin qu'ils soient parfaitement scellés. Mettre la plaque 30 minutes au réfrigérateur.

4. A l'aide de la pointe d'un petit couteau placé à l'envers (lame vers vous) et tenu dans le sens du biais, soulever les deux bords joints de la galette et les festonner en enfonçant légèrement le couteau tous les centimètres tout en appuyant sur la pâte avec l'index entre chaque entaille.

5. Avec la dorure et un pinceau, badigeonner en toute la surface de la galette en prenant soin que la dorure ne coule pas sur les bords. Décorer le dessus de la galette en rayant uniformément la pâte avec la pointe du couteau tenu à l'envers, la strier en partant du centre en dessinant des arcs de cercle espacés tous les 2 cm.

6. Glisser la galette dans le four préchauffé à 230 °C, baissé aussitôt à 190 °C. Laisser cuire 45 minutes, pas moins.

7. La Servir de préférence tiède.

Maury Rubin's Grilled Chocolate Sandwich

Makes 6–8 sandwiches

Source: [62], 7 September 2003

8 oz	dark (bittersweet) chocolate
1/2 c	heavy cream
12–16	slices plain white bread
	a handful of chocolate
	1/2 long batons of chocolate or chocolate chips (about 1/3 cup)
3–4 Tbsp	softened butter

1. Chop the chocolate fine and set aside in a medium bowl.

2. Heat the cream in a small saucepan until just boiling and pour over the chopped chocolate. Let stand 1 minute, then whisk until smooth. Refrigerate until just slightly solid, about 30 minutes.

3. Spread a layer of the chocolate mixture 1/4 -inch thick (approximately 2 to 3 tablespoons) on half the bread sides to within about 1/4 inch of the edges. Press about 2 teaspoons of the chocolate chips (or 5 or 6 pieces of batons) into the center of each filling.

4. Spread a bit of softened butter over one side of the remaining slices. Buttered side up, place the slice over each chocolate-spread slice and press lightly around the edges to seal. Refrigerate for at least 15 minutes before putting on a grill or on a press. (If you are using a skillet instead, freeze the sandwich 15 minutes.)

5. Heat a grill or sandwich press (or a large griddle or skillet over medium-high heat), and add the sandwiches. Press on one side only for a minute or two (depending on the particular grill or press you're using) until the bread is nicely browned; the chocolate should be barely melted and not swimming out the side. If you are using a griddle or skillet, heat the sandwich first on

the unbuttered side until lightly toasted, about 1 minute; turn the sandwich over and weight it down by placing a baking sheet or pan on top of the sandwich and placing a few soup cans on top. Toast for another minute, until golden. Cut in half and finish with a frilled toothpick.

14 g	gélatine feuilles
90 g	blanc d'oeufs
90 g	eau
40 g	miel
250 g	sucre
70 g	pâte de cacao
	poudre de cacao

1. Préparer une plaque bien saupoudré de poudre de cacao. Mettre une cadre dessus, environ 25 cm × 25 cm.
2. Laisser ramollir la gélatine dans de l'eau froide.
3. Commencer à monter les blanc d'oeufs.
4. Faire cuire le miel, le sucre, et l'eau à 130 °C.
5. Ajouter la gélatine au sirop, puis verser dans les blancs d'oeufs semi-montés, puis laisser tiédir au batteur jusqu'à 45 °C environ. (Essentiellement, faire une meringue italienne.)
6. Ajouter le cacao fondu et cadrer. Saupoudrer de poudre de cacao. Laisser geler quelques heures au moins à température ambiante.

La recette originelle ne propose que 35 g de pâte de cacao.

J'ai fait un test : 1 g de poivre de sichuan rouge, légèrement écrasé, infusé dans 20 ml d'eau chaude pendant 15 minutes, puis filtrer et ajouter au sirop en même

temps d'ajouter la gélatine. L'objectif était une sensation citronnée subtile. C'était trop subtile, je pense être la seule personne qui a remarqué l'existance. La prochaine fois je vais essayer 1,5 g, un peu mieux écrasé, infusé dans de l'eau (initialement) bouillante pendant 30 minutes.

C'est une spécialité de Douarnenez, quoique certaines de sources parlent de Scaer, et un excellent gateau quand il est réussi.

600 g	farine
500 g	beurre
500 g	sucre
2–3 dl	d'eau
1 pincée	levure de bière
1 pincée	sel

1. Tamiser la farine, la mettre sur une planche, faire une fontaine, y mettre le sel, la levure, l'eau très froide.
2. Avec le bout des doigts, mélanger le tout rapidement. Envelopper le pâton d'un linge, laisser reposer cinq minutes.
3. Pendant ce temps, mettre le beurre dur dans le coin d'un torchon mouillé, replier le torchon et triturer le beurre pour lui donner une certaine souplesse.
4. Etaler la pâte, mettre le beurre, et le sucre au milieu, replier les bords comme une pâte feuilletée et plier deux fois en quatre.
5. Mettre aussitôt à four chaud (200 °C) une demi-heure.

Conseil

La température du beurre et de la pièce où se prépare le gateau est importante. Certains pâtissiers laissent la pâte reposer dans un torchon, avant de faire les tours. D'autres utilisent de l'eau très froide pour faire la pâton, d'autres encore de la levure diluée à l'eau tiède ou lavent le gâteau au lait avant la cuisson.

Ne lésinez pas sur le beurre, et une fois le gâteau cuit, arrosez le du beurre fondu qui n'a pas pénétré dans la pâte. Laisser refroidir dans le moule (en fer) de cuisson pour ne pas vous brûler avec le caramel.

Pour réchauffer le gâteau, faites chauffer une poèle, la retirer quand elle est chaude. Démouler le gâteau, le glisser dans la poèle. Couvrez, patientez 5 à 8 mn hors du feu. Régalez vous !

Macaron au Chocolat de M. Castelanne

Fait environ 70 coques

2 heures

Source: [12]

Coques

150 g	sucre (pour la meringue)
60 ml	d'eau
60 g	blanc d'oeufs (environ 2 oeufs, pour la meringue)
150 g	sucre (pour le poudre d'amande)
110 g	poudre d'amande
30 g	poudre de cacao
60 g	blanc d'oeufs (environ 2 oeufs)

1. Meringue italienne: Mettre le sucre et l'eau dans une casserole et faire cuire jusqu'à 118 °C. Battre les blancs d'oeufs en neige, puis à vitesse moyenne verser le sucre cuit en mince filet sur les blancs déjà mousseux. Laisser refroidir toujours en battant. Quand la mousse prend corps, augmenter la vitesse au maximum pour serrer les blancs.

2. Pendant que le sucre cuit et puis que la meringue refroidisse, passer le sucre pour le poudre d'amende au blender afin de créer du sucre glace (donc sans amidon comme dans le sucre glace commercial). Ajouter le poudre d'amende pour avoir un poudre plus fin, mais attention à ne pas faire exprimer l'huile. Ajouter le cacao.

3. Ajouter le blanc d'oeufs non-battu au poudre. Puis peu à peu ajouter la meringue au poudre en macaronnant à la maryse. Le mélange doit briller et faire ruban. Une trace de doigt d'un centimetre doit refermer lentement.

4. Remplir une poche à douille (douille de 10 mm). Dresser sur une feuille de papier cuisson sur une plaque. Les claquer, puis les laisser croûter 30 minutes.

5. Préchauffer le four á 160 °C (ventilé) ou 180 °C (statique). Faire cuire les coques de 10–11 minutes.

6. A la sortie du four, renverser les coques sur des volettes.

Ganache

100 g	chocolat
90 g	crème fleurette
25 g	beurre

1. Hacher le chocolat. Chauffer la crème à 40 °C et verser sur le chocolat.

2. A 30 °C mettre le beurre pommade et l'incorporer.

3. Laisser refroidir. Remplir une poche à douille et dresser et marier les coques.

4. Laisser les macarons, maintenant complets, reposer un jour pour qu'ils prennent l'humidité.

Notes :

- Pour des macarons non-chocolat, c'est 150 g de poudre d'amande au lieu de 110 g poudre d'amande plus 30 g de poudre de cacao.
- Une ganache au fruit peut se faire en mélangeant 100 g de confiserie blanche, 10 g de beurre de cacao, 60 g de pulpe de fruit, et 30 g de beurre.

Macarons Natures

205 g	sucre glace
205 g	poudre d'amande
25 g	*(cacao, si macarons au chocolat)*
160 g	sucre semoule
37 g	eau
72 g	blancs d'oeufs, montés
60 g	blancs d'oeufs, crus *(si chocolat, 65 g)*
qs	vanille

Pour faire des macarons au chocolat, passer à 65 g blancs d'ouefs crus et ajouter 25 g de cacao poudre dans la poudre d'amandes.

1. Passer le sucre glace et la poudre d'amende dans un robo pour faire un poudre très fin. Les tamiser.
2. Cuire le sucre semoule et l'eau à 118 °C, puis verser sur les blancs montés en vitesse moyenne.
3. Ajouter les blancs crus à la meringue, puis mélanger les poudres et la vanille et macaroner.
4. Dresser sur papier cuisson.
5. Laisser sécher au moins 20 minutes, puis cuire 11–12 minutes à 160 °C (ventilé) ou 180 °C (statique).

Pour faire des macarons au chocolat, commence à faire la ganache des que les coques sont enfournées. La ganache aura besoin de temps pour crystallizer.

La recette original proposait de 10 à 11 minutes au four. Trop souvent les coques étaient mous.

Garniture Fraise Menthe

225 g	fraises (même congelées), passées préalablement au blender
60 g	sucre
35 g	glucose (DE 40)
4 g	pectine NH
20 g	jus de citron
55 g	chocolat blanc (beurre de cacao?)
10 g	Get 27

1. Faire cuire les fraises avec le sucre et le glucose. Vers 60 °C (température précise pas très importante) ajouter la pectine. Cuire jusqu'à 103 °C.
2. Ajouter le jus de citron, puis verser délicatement sur le chocolat blancs (beurre de cacao ?). Ajouter le Get 27.
3. Laisser refroidir avant de dresser les coques de macarons.

Garniture Chocolat

150 g	crème fleurette
120 g	chocolat pur Venezuela 72%
18 g	beurre

1. Faire une ganache. Laisse refroidir.

La recette originelle propose 125 g de crème, 100 g de chocolat, et 15 g de beurre. Insuffisant à chaque fois.

Mrs. Fields Chocolate Chip Cookies

Makes 112 cookies

30 minutes

Source: [31]

2 c	butter
2 c	sugar
2 c	brown sugar
4	eggs
2 tsp	vanilla
4 c	flour
5 c	oatmeal
1 tsp	salt
2 tsp	baking powder
2 tsp	baking soda
24 oz	chocolate chips

This is the recipe from the GNU emacs distribution. It is not actually the Mrs. Fields recipe, but it tastes very similar to their cookies.

1. Cream together butter, sugar, and brown sugar. Add the eggs and vanilla.
2. Process the oatmeal in a food processor or blender (in small amounts) until it turns to powder. Measure 5 cups of oatmeal, not 5 cups of powdered oatmeal.
3. Mix together in a separate bowl the flour, the powdered oatmeal, as well as the salt, powder, and soda.
4. Mix everything together. Add chocolate chips.
5. Make 1 inch balls and place about 2 inches apart on greased cookie sheets. Bake at 350 °F for 8–10 minutes.

Nib buns

Makes 12

3 hours plus overnight fermentation time

Source: [79]

Dough

3 g	dry yeast
42 g	sugar
110 g	warm water
1	egg
110 g	cream
385 g	flour
1.5 g	salt
	nutmeg, freshly grated
42 g	unsalted butter, melted

1. Combine yeast, sugar, and warm water.
2. In a small bowl, whisk egg with cream.
3. In a separate bowl, whisk together flour, salt, and nutmeg.
4. In the bowl of a stand mixer, combine yeast mixture with flour mixture. Mix until dough begins to come together, then stream in the egg and cream mixture, followed by the melted butter. Mix until the dough is smooth and elastic and pulls away from the sides of the bowl, about 6 minutes.
5. Coat dough with oil. Bulk ferment, covered and refrigerated, overnight (for 8–10 hours).

Chocolate custard

115 g	chocolate, 70%, chopped
1	egg
1 g	vanilla extract
150 g	whole milk
	cinnamon, ground (ideally freshly)

1. Melt the chocolate, set aside.
2. In another bowl, whisk egg and vanilla just to break up yolk, set aside.
3. In a sauce pan heat milk and cinnamon just until steaming. Make a crème anglaise. Remove from heat, pour over chocolate, whisk thoroughly to combine, and pass through a strainer (to remove any coagulated egg) before it cools too much to do so. (I find it more practical to strain the custard onto the chocolate rather than to combine and then strain.) If the custard appears chunky, use an immersion blender to emulsify it.
4. Refrigerate overnight.

Filling

110 g	light brown sugar
60 g	cocoa nibs

1. Combine and set aside.

Cinnamon nib sugar

30 g	cocal nibs
200 g	sugar
8 g	cinnamon, ground, ideally freshly
pinch	salt

1. Place the nibs in a coffee grinder and pulse until fine. Sift through a fine-mesh strainer and combine all ingredients.

Note: This seems like quite a lot of cinnamon. As the chocolate will overpower the taste of cinnamon, it is not a typo.

Assembly

unsalted butter, melted

1. Remove dough from refrigerator and allow to sit at room temperature for at least 20 minutes.
2. Generously butter muffin tins.
3. Turn out dough onto lightly floured surface. Roll into a rectangle, about 30 cm × 40 cm and 6 mm thick.
4. Slightly warm the chocolate custard so that it becomes spreadable. Spread it on the dough, leaving a 5 mm border at the edges.
5. Sprinkle with the brown sugar and nib mixture.
6. Roll from the long edge to form a log. With a bench knife cut into 12 slices. Place in muffin tins. Allow to rise for about 30 minutes.
7. Preheat oven to 350 °C.
8. Bake buns for 20 minutes or until golden brown.
9. Allow buns to cool for 10 minutes. Using a pastry brush, coat each roll with melted butter, then roll in the sugar and nib mixture, coating the entire surface. Serve immediately.

Original Plum Torte

Andrew Scrivani for The New York Times

Time 1 hour 15 minutes Rating 5(10533) Notes Read community notes

The Times published Marian Burros's recipe for Plum Torte every September from 1983 until 1989, when the editors determined that enough was enough. The recipe was to be printed for the last time that year. "To counter anticipated protests,"Ms. Burros wrote a few years later, "the recipe was printed in larger type than usual with a broken-line border around it to encourage clipping."It didn' t help. The paper was flooded with angry letters. "The appearance of the recipe, like the torte itself, is bittersweet,"wrote a reader in Tarrytown, N.Y. "Summer is

leaving, fall is coming. That's what your annual recipe is all about. Don't be grumpy about it."We are not! And we pledge that every year, as summer gives way to fall, we will make sure that the recipe is easily available to one and all. The original 1983 recipe called for 1 cup sugar; the 1989 version reduced that to ¾ cup. We give both options below. Here are five ways to adapt the torte.

Ingredients

Yield:8 servings

• ¾ to 1cup sugar • ½cup unsalted butter, softened • 1cup unbleached flour, sifted • 1teaspoon baking powder • Pinch of salt (optional) • 2eggs • 24halves pitted purple plums • Sugar, lemon juice and cinnamon, for topping

Preparation

1. Step 1

Heat oven to 350 degrees.

2. Step 2

Cream the sugar and butter in a bowl. Add the flour, baking powder, salt and eggs and beat well.

3. Step 3

Spoon the batter into a springform pan of 8, 9 or 10 inches. Place the plum halves skin side up on top of the batter. Sprinkle lightly with sugar and lemon juice, depending on the sweetness of the fruit. Sprinkle with about 1 teaspoon of cinnamon, depending on how much you like cinnamon.

4. Step 4

Bake 1 hour, approximately. Remove and cool; refrigerate or freeze if desired. Or

cool to lukewarm and serve plain or with whipped cream. (To serve a torte that was frozen, defrost and reheat it briefly at 300 degrees.)

Tip

- To freeze, double-wrap the torte in foil, place in a plastic bag and seal.

La Pâte Sablée

50 g	sucre
100 g	beurre
1	ouef
	pincé de sel (facultatif)
150 g	farine

1. Dans un saladier, mélanger le beurre ramolli, le sucre et l'oeuf battu. (Tout sauf la farine et éventuellement le sel.)
2. Quand le mélange est accompli, ajouter petit à petit la farine et travailler légèrement la pâte.
3. Mettre en boule dans un linge humide et laisser reposer dans le bac à légumes du réfrigérateur pendant la préparation et cuisson (première phase) des pommes.

Une goutte d'extrait d'orange dans la pâte fait une bonne surprise subtile dans la tarte.

Les pommes

1 kg	pommes (golden delicious, pink lady, …)
125 g	beurre
125 g	sucre
	sucre et cannelle

1. Epeler les pommes et couper en quarts.
2. Dans un moule, mettre le buerre et le sucre et chauffer doucement.
3. Une fois que le beurre commence à blondir, mettre les pommes dans le moule “debouts”, bien serrées les unes contre les autres. Saupoudrer d’un mélange de sucre et de cannelle. (Il y en a qui utilise du sucre vanillé.)
4. Faire cuire doucement une demi-heure.
5. Vers la fin de la cuisson, faire la pâte. Préchauffer le four á 180 °C.
6. Les pommes doivent être tendre et légèrement caramélisées. Enlever le moule du feu, recouvrir de la pâte tel que le bord de la pâte ne déborde pas le moule, et mettre au four pendant 30 minues.
7. Sortir du four quand la pâte est dorée. Renverser sur du papier cuisson lorsque la tarte soit tiède. Dans la mésure où du caramel liquide sort, le remettre en dessus de la tarte avec une spatule.

Servir tiède avec de la crème fouettée.

Elles conserveront une semaine au refrigérateur.

Truffes

Source: [53]

200 g	chocolat noir
100 g	beurre
1	jaune d'oeuf
	du chocolat poudré

1. Faire chauffer le chocolat et le beurre juste pour que le chocolat fonde. Ajouter le jaune d'oef. Bien mélanger. Laisser refroidir un peu.
2. Former des boules. Rouler en chocolat poudré. Mettre au frais.

Variations de Jeff:

- Fouetter avant de laisser refroidir.
- Ajouter un peu de crème chantilly.

U Fiodone

Serves 6–12

20 minutes + 30 minutes cuisson

Source: [81]

5	oeufs
200 g	sucre
1 cuillère à soupe	farine
1	brocciu (ou une brousse), vers 450–500 g
1 zeste	citron (facultatif)
1 verre	eau de vie (facultatif)

1. Battre les oeufs et le sucre en omelette. Ajouter la farine et les autres ingrédients. Mélanger le tout et mettez au four à 180 °C jusqu'à ce que le gâteau soit doré et un couteau ressort sec, environ 30–35 minutes (ou: 175 °C pendant 45–50 minutes?).

2. Dégustez le tiède ou, à la tradition corse, froid.

Warm Soft Chocolate Cake

Makes 4

30 minutes plus 12 minutes to bake

Source: [85]

4	oz	(113 g) butter (plus a little for buttering pans)
2	tsp	flour (plus a little for dusting pans)
4	oz	bittersweet chocolate
2		eggs
2		egg yolks
1/4	c	sugar

1. Butter and lightly flour 4 4-ounce molds, custard cups, ramekins, or similar containers. Tap out the excess flour. Preheat the overn to 450 °F.
2. Gently heat the butter and chocolate together until chocolate is almost completely melted.
3. Beat eggs, yolks, and sugar together with a whisk or electric beater until light and thick.
4. Beat melted chocolate and butter together. While it is still warm, pour into the egg mixture, then quickly beat in the flour until combined.
5. Divide batter among the molds. (At this point, you can refrigerate the desserts for several hours until ready to eat. Bring them back to room temperature before cooking.)
6. Bake molds on a tray for 12 minutes. The center will still be quite soft, but the sides will be set.
7. Invert each mold onto a plate and let sit for about 10 seconds. Unmold by lifting up one corner of the mold; the cake will fall out onto the plate. Serve immediately.

This is better with 2–4 oz extra chocolate mixed in—the result is smoother and creamier, less dry.
